Chapter News

Hello all you members. Good news, from my last letter our membership has climbed from 102 to 111 which is great. This leads into the area of membership in that we have a great opportunity for growth in not only recruiting new members but also to transfer other members that live in our area and are members either at large or of other Chapters. If you know of any one that fits into this category please invite them to join. I am enclosing transfer slip in this letter to help you to better serve those that either have no active affiliation or are not being served by there present Chapter either by distance or interest.

We are losing one our Board members this month since he will be moving to Coos Bay, Oregon. We will miss John Levesque and his lovely wife. John has been a real asset to this Chapter as one of the Founding members of it. I will miss his enthusiasm and his dedication in getting this newest Chapter in the U.S. going. Thank you for you service John.
